TURKS IN PANIC TROOPS DESERT

Ottoman Empire In Reign Of Terror Over Approaching Of Allied Fleet.

CIVIL WAR IMMINENT AS TURKS HURL CHARGES BACK AND FORTH IN CAPITAL

Military Experts Declare Teutonic Allies are Playing Losing Game — Other Neutrals Join U. S. in Protest Against Blockades.

Associated Press. Athens, March 3.—Nine battle-ships took part in yesterday's bombardment of the forts in the Dardanelles. Six of them were British and three French. The squadron advanced to within miles of Chanak Kalesi at the narrowest part in the straits. Detachments of the allied troops, which were landed at Kum Kaleh on the Asiatic side, met the Turkish armies of Field Marshal Von Hindenburg which was scattered easily. The funds and books of the Ottoman bank and the German bank, it is said have been taken from Constantinople to Konieh, a city in Asia Minor. Information from reliable sources to the effect that Turkey now realizes the situation is becoming critical. Defenses are being thrown up hastily at different points along the coasts of Asia Minor. Troops from Smyrna are being rushed to the Dardanelles region. Desertions are numerous. Placards are said to have been posted in Constantinople proclaiming that the Young Turks' leaders traitors. Bitter dissensions are said to have arisen among the Turkish leaders. According to what appears to be the almost unanimous opinion of British observers, Germany and Austria are playing a losing game along nearly all the eastern front.

NATIONAL SOLONS LABORING OVERTIME TO FINISH WORK

Must Work Incessantly Until End of Session Tomorrow—The Rural Credits Bill In Danger—Other Important Measures Must Have Immediate Attention.

Associated Press. Washington, March 3.—The 63rd Congress swung into the last twenty-four hours of its life today confronting with a mass and jumble of work which must be done before noon tomorrow. Both House and Senate will be in practically continuous session until adjournment. One by one the accumulation of bills and resolutions was being discussed and sent to the White House for President Wilson's signature, but the closing hours were not without threats of failure for some measures. Today House and Senate conferees were deadlocked over the rural

DOCTOR DERNBURG
Former German Minister Acting as Kaiser's Representative.

Following the rumors that Count Von Bernstorff, the German ambassador to the United States, is to return to Germany and that his place is to be filled by Baron Treutler, comes the report that Dr. Dernburg, former German imperial minister for the colonies, has been acting in the capacity of a personal representative of the Kaiser in America.

Senator Burton, and others who led the Republican opposition to the Philippine bill, arranged to watch the closing hours of the Senate to meet any attempt to pass the bill when the opposition was not watching.

TURKISH LINE IS SEVERED

By Associated Press. Tiflis, Trans-Caucasia, March 3.—via Petrograd and London.—The Russian army of Caucasus, driving the Turkish forces before it, has cut the route of Turkish reinforcements and supplies from Constantinople to the Caucasian frontier, through Khopa, Turkish Armenia. This isolates a large section of Turkish territory. The Russians advanced from Batum, on the Black Sea. They were assisted by Russian warships, which cleared the shore of Turkish forces.

CARGO IS IN PRIZE COURT

By Associated Press. New York, March 3.—Norvin Lindheim, attorney for the shippers of the cargo of the American steamship *Wilhelmina*, now detained at Falmouth, England, announced today that he had received word from abroad that the cargo had been placed in a prize court.

200 MEXICANS DROWN IN TRAP

By Associated Press. Mexico City, March 3.—Two hundred men of General Obregon's command were drowned in the water main leading out to the suburban sources of Mexico City's water supply in a recent attempt to get to the rear of the Zapatista forces. When the Zapatistas were compelled to evacuate the capital a few weeks ago, they retired to the suburb of Xochimilco and seized the

sources of the city's water supply, making the capital dependent on artesian wells and a small reservoir in a park near Chapultepec Castle. The unflushed sewers, due to the fact that a scarcity of water made it unwise to use it for anything than drinking purposes, seriously menaced the health of the city. General Obregon made many attempts to recapture the main sources of the water supply in the old Indian town of Xochimilco, but all of them were repulsed by Zapata's men. A daring raid was finally decided upon, for which General Obregon detached 200 of his men. He ordered them to drop into the mains which had long been dry, and to attempt to travel through them to an opening at the rear of Zapata's main position. A spy informed the latter general of the ruse and after the men had been allowed to travel some distance in the mains, the full force of water turned on, drowning the invading force to a man.

DAIRY HERD IS AFFLICTED

Cincinnati, March 3.—Dr. R. B. Blume, Cincinnati's chief food inspector, today discovered a herd of 70 cows in a Pleasant Ridge dairy afflicted with foot and mouth disease. Practically every one of the animals will have to be killed, he said.

He criticized the State Department of Ohio for alleged neglect of Hamilton county in the fight against the disease.

PARRETT BILL TO BE REPORTED OUT TOMORROW

Columbus, March 3.—Finishing touches were put on the Parrett-Whittemore taxation reform measure to decentralize the assessing system by the House Taxation Committee today.

Representative Parrett of Fayette, chairman of the Committee, said he expected the bill to be reported out tomorrow with a recommendation for passage.

ASK PASSAGE OF GARVER BILL

Columbus, March 3.—The Senate Drainage and Irrigation Committee today reported the Garver bill with a recommendation for passage. It was made a special order to be voted on next Wednesday.

13 BODIES REMOVED FROM YAWNING SHAFT

Rescuers Working to Release 182 Entombed Miners Find Work Tedious—Carload of Coffins Reach Scene.

By Associated Press. Hinton, W. Va., March 3.—Trained miners, working under the direction of engineers of the Federal Bureau of Mines, today penetrated the entire length of the mine entry in the Layland mine, where an explosion occurred yesterday. Three bodies were recovered, bringing the known dead to 13. Leaders of the rescue crews expressed the opinion that when the rooms were reached many more bodies would be found. A carload of coffins arrived at the mine this morning.

Hinton, W. Va., March 3.—Rescue parties worked in relay throughout the night in a feverish effort to penetrate the depths of the Layland mines of the New River and Pochontas Consolidated Coal Company seven miles from Quinnimont where 182 miners were entombed by an explosion yesterday. Ten men have, so far, been taken out alive, while nine bodies have been brought to the surface, but owing to the wrecked condition of the mine, rescue work is tedious and it may be days before the workings have been explored. James W. Paul, chief mining engineer from the Pittsburgh station of the Bureau of Mines, was expected today to take charge of the work. Officials of the State Department of Mines will begin an investigation at once. Despite the cold, crowds of anxious relatives of the entombed men waited at the mouth of the mine all night. As fast as the bodies were brought to the surface they were taken to a temporary morgue. Later the relatives will be permitted to attempt to identify them.

The Garver bill would amend the Vonderheide conservancy law to eliminate construction of earth dam reservoirs.

ANARCHISTS INDICTED IN SHORT ORDER

By Associated Press. New York, March 3.—The Grand Jury today began to consider the cases of Frank Abarno and Chas. Carbone, the anarchists accused of plotting a dynamite war against churches and men of wealth, who were arrested yesterday after the police had foiled an attempt to explode two bombs in St. Patrick's Cathedral.

Within two hours after the jury went into session indictments were handed down against the two men, charging them with placing a lighted bomb in a public place.

PAY IS SLASHED SIXTY PER CENT

County Liquor License Commissioners Hard Hit.

GOVERNOR WILLIS ORDERS CUT

Total Reductions Amount to Approximately \$45,000 and Will Be in Effect After April First—Many Resignations Likely to Follow—Friends of Vonderheide Act Predict Defeat of Garver Flood Bill.

Columbus, March 3.—Reductions averaging almost two-thirds of the present salaries of county liquor licensing commissioners were ordered by Governor Willis. The salaries of the new commissioners appointed for counties under the home rule amendment are fixed in accordance with the reductions. The total reductions amount to about \$45,000 and are in line with the governor's policy of economy. The new salaries become effective April 1.

While the minimum salary for the small counties has been \$40 a month, or \$480 a year, the new minimum for present wet counties is cut to \$15 a month or \$180 a year. In five counties which were made wet by the home rule amendment the commissioners will receive only \$10 a month, or \$120 a year. The highest salary paid in the new wet counties is in Belmont, where it is fixed at \$45 a month. Commissioners for this county have not yet been appointed. The salaries of commissioners in the new wet counties started March 1.

Commissioners of Hamilton county receive a cut from \$5,000 to \$2,860, and those of Cuyahoga county from \$5,000 to \$2,940. Those of Franklin and Lucas counties are cut from \$4,800 to \$2,040.

Under the present license law salaries of all county license commissioners must be approved by the governor, hence the cuts decided upon. These cuts were established after the members of the state license commission had been called into conference with the governor on several occasions. The salaries of the state board are not affected.

That the reduction in salaries will be followed by many resignations is the prediction heard. Salaries of secretaries of commissioners in the larger counties also have been cut.

It is said some of the commissioners are convinced the governor is without authority to change salaries of men during the terms for which they were appointed. Attorney General Turner has rendered no opinion on the subject.

Claim Garver Bill Doomed.

Friends of the Vonderheide flood protection law claim they have won their fight to bring about the early defeat of the Garver-Quinn bill, which seeks to amend the present law so as to make the use of dams prohibitive. Senator Garver announced that he will have the bill reported out with recommendation for passage by the committee on drainage and irrigation. The announcement of the Miami county senator was made after an attempt had been made in the senate to have the bill withdrawn from the committee and placed upon its passage. When it reaches a vote tomorrow, opponents expect it will be defeated.

Adoption by both houses of the conference report on the Howard salary bill served to pass the bill which lowers salaries of state board members and others. The conferees fixed at

\$4,000 the salaries of the members of the board of administration, as the senate desired, but sided with the house in abolishing the position of secretary of that board, now held by W. E. Haswell.

Streetcar and interurban companies will have to furnish heat in the vestibules of their cars for motormen and conductors if Governor Willis approves the bill by Smith of Butler county, which was passed by the senate. It already had been passed by the house.

Passage of the Gallagher bill, designed as a vehicle for settlement of the Ohio coal strike, is recommended by the senate committee on mines and mining.

The senate passed the house bill of Colonel Knox of Marietta authorizing the state to provide \$1,000 for furnishing each armory.

NEUTRAL CONVOYS HAVE CONFERENCE

London, March 3.—Representatives of the neutral nations met at the foreign office and discussed informally Premier Asquith's pronouncement as to Great Britain's reprisal policy. No formal protests have been filed.

The new program has not yet gone into effect because certain formalities are necessary, one of them probably being an order in council. Some authorities think that the pronouncement leaves a loophole whereby, if the protests of neutrals become too strong, Great Britain can make acceptable concessions, but in view of the virtually unanimous belief that the blockade is now in force, it is doubtful if the British public will stand for anything less than the general interpretation of the announcement.

In spite of this firm attitude of the people the suggestion is heard in some quarters that the new policy may have been evolved in order to strike a bargain, and that if Germany will abandon her submarine campaign the allies will revert to the dictates of international law and will abide thereby.

NEW DIRECTOR OF MINT NAMED

Washington, March 3.—The president sent to the senate the nomination of Robert Wickliffe Wolley of Fairfax, Va., to be director of the mint to succeed George E. Roberts of Iowa, who resigned after serving in the office almost continuously since the McKinley administration, to accept the place of assistant to the president of the National City bank of New York. Wolley was at times connected with New York newspapers and later entered magazine work. He was associated with William McAdoo in the campaign of 1912 and was at one time slated for assistant secretary of the treasury. He was finally appointed auditor of the interior department.

GO TO CHURCH

Now Is the Time.
Don't Procrastinate

GO TO CHURCH.

Do it now.

"NOW" IS THE GREAT WORD OF GOD. "NOW" IS THE ONLY TREASURE WE HAVE, YET WE SQUANDER IT AS IF IT WERE OF NO VALUE. WHEN A PERSON SAYS HE HAS BEEN KILLING TIME HE HAS BEEN KILLING LIFE, FOR LIFE IS TIME. YOU CAN DO MORE WITH FIVE MINUTES NOW THAN YOU CAN WITH A THOUSAND YEARS AFTER YOU ARE DEAD. WHAT YOU DID YESTERDAY AND WHAT YOU WILL DO TOMORROW SINK INTO INSIGNIFICANCE COMPARED WITH WHAT YOU MAY DO TODAY. TWO FORCES STRIVE WITHIN US—ONE IS ACTION, THE OTHER IS DELAY. ACTION IS A SEVERE TASKMASTER, BUT IS RICH IN REWARD, WHILE DELAY IS AN EASY BOSS, BUT A POOR PAYMASTER.

Shakespeare declares in his familiar but ever true lines, "There is a tide in the affairs of men which taken at the flood leads on to fortune." And Lowell ringingly proclaims, "Once to every man and nation comes the moment to decide." There is some momentous secret in the psychological moment when the heart is hot and the emotions aroused. Now is always the day of salvation. The old hymn rightly conceived the truth:

There is a time, we know not when;

A place, we know not where,

That marks the destiny of men

To glory or despair.

THEREFORE, DO NOT PROCRASTINATE. GO TO CHURCH NOW. YOU MAY NOT BE ABLE TO GO TO CHURCH TOMORROW. WHO CAN SAY WHERE HE WILL BE TOMORROW? THERE ARE YOUNG MEN WHO LAUGHINGLY DECLARE THAT THEY WILL GO TO CHURCH WHEN THEY ARE OLD. THEY MAY NEVER GET THAT CHANCE. THEY MAY BE CUT DOWN IN THEIR PRIME. DON'T DELAY. DELAYS ALWAYS ARE DANGEROUS, BUT NEVER MORE SO THAN WHEN YOU DELAY MAKING YOUR PEACE WITH GOD.

GO TO CHURCH NOW.

OHIO BRIEFS

Teacher Receives Poison Pen Notes.

Warren, O., March 3.—Secret service men are trying to find the writer of many poison pen letters sent to Miss Helen Sweet, a teacher of the high school. The writers seem to be bent on driving Miss Sweet from the city, and went so far last August, it is said, to forge her name to a resignation blank and send it to the superintendent of schools.

Found Guilty of Manslaughter.

Bowling Green, O., March 3.—Guilty of manslaughter was the verdict of the jury in the case of Charles Neiswander. A motion for a new trial was made. Neiswander was released on \$5,000 bond. Neiswander was charged with killing his father-in-law, William Edward Dinndore, in 1913.

Gun Falls; Woman Dying.

Findlay, O., March 3.—While she was cleaning house, Mrs. Thomas Skidmore was shot in the head and is dying. A shotgun was standing in one corner of the room and Mrs. Skidmore's little daughter walked in and began playing with it. The gun fell and was discharged.

Aged Man Burned to Death.

Delaware, O., March 3.—Charles Peckham, eighty-eight, was burned to death at the home of his son, Albert Peckham, in Berlin township. The aged man, who had been ill with grip, went to sleep too close to a stove and his clothing caught fire.

Methodist Minister Dead.

Springfield, O., March 3.—Rev. J. A. Story, superintendent of the Springfield district of the Methodist Episcopal church, died from an attack of heart failure with which he was stricken on the street.

Under The American Flag

The jingoists and alarmists can learn a great deal if they will consider, thoughtfully, the fact that several great transatlantic liners, belonging to other nations, have sailed with the American flag prominently displayed because of the protection that flag guarantees to them, their passengers and their cargo.

If our alarmist friends would but consider those incidents they would find in them a deep significance and a complete answer to the demand for feverish preparation for war.

Why did those vessels of great and powerful nations—nations prepared for war and armed to the teeth; nations whose people have been burdened for years with the cost of maintaining a great army and navy—choose the starry banner as the greatest protection in these troublesome times of strife and war?

Was Old Glory chosen as the adopted flag because America had the largest army and navy and the best equipped and best prepared for war?

Not at all.

Any one of the nations engaged in the war in Europe is better prepared than our nation, especially according to those who would rush preparations for war on a gigantic scale.

The flag of the United States was chosen as the one which guaranteed a safe voyage because it was the flag of a great nation at peace with the world.

That flag flying from the mast of the great ocean liners meant that the people of this nation who stood sponsor for that ship and the hundreds of human beings it carried, was at peace. It meant that the people of this nation had no ill feeling for the people of any other nation, that they had no quarrel with humanity, that they were not intent upon destruction, they were not seeking to kill the people of any other nation.

The men on board the frowning battleships, drawn up beside the monster guns trained upon the horizon, with the determination to shoot and shoot to kill clearly discernible on their tense faces, relax from the strain, stand at ease and salute the ship sails majestically and uninterruptedly past them on its mission of peace which the Star Spangled Banner flying from her mast guarantees.

Which would the jingoist prefer, the flag of one of the great warlike and warring nations to fly, which means trouble to any vessels, or Old Glory to fly, which means safety and speaks its word of good will, good cheer and good fellowship to every passerby on the trouble strewn sea.

Which is better, peace or war?

Necessity And Invention

That the American people are the most inventive people in the world has long been conceded as a fact. It required just such a condition as the present European war has brought about—the inability to get certain articles and products made abroad and the urgent necessity for those articles and products—to bring that fact prominently to the public attention.

Americans are inclined to take the fact that the people of this nation are the inventive geniuses of the world as a matter of course and forget just what wonders our scientists and our mechanics can accomplish.

We have long been familiar with that old truism, necessity is the mother of invention, and the way Americans are inventing to supply present necessities is furnishing additional proof of the soundness of that old truism.

From Washington comes the news that our chemists are making important discoveries—an explosive of great destructive power and making gasoline from cheaper oils and at a consequent reduction in price, are on the new list.

These discoveries in the line of chemical research have come and others will come, as a result of our being compelled to shift for ourselves.

There can be no question that many of the articles which we have been buying abroad, content to accept the work of the foreign manufacturer while our efforts were devoted to other and newer fields of activity, will now be manufactured here. We must have the articles and we can't purchase them abroad. The necessity thus created must be supplied by the inventive genius of the American manufacturers and laborers.

The result can only mean that industrial activity will be greatly increased and American factories will hum with the work of supplying the needs of the people and men out of employment will find it in the factories which must now make what we have been buying abroad.

Our necessity is going to be the best "Made in America" booster our manufacturers have ever had.

Poetry For Today

BLUE WINGS.
I know not how he chanced to stay
When all his kind had flown away
To sunny southern skies,
A visitor in royal blue—
But to my window sill he flew
An angel in disguise.
For I was very sad and lone
The one I loved had lately gone
To distant lands away;
And somehow when the bluebird
Came
My heart was warmed as at a flame
That storm-swept winter day.
Somehow I felt my love had sent
This feathered one with sweet intent
To cheer and comfort me,
And tho' the blue wings quickly
Went
A-flashing off, they left content
And happiness with me.
And every night before I sleep
I softly to my window creep
And in the darkness still
I think about a far-off land,
And scatter crumbs with lavish
hand
Upon the window-sill.
—L. K. W., in the Bluebird

Weather Report

Washington, March 3. — Ohio: Fair Wednesday, colder north; Thursday probably snow in north and snow or rain in south.
Virginia—Fair Wednesday and Thursday.
Lower Michigan—Fair Wednesday, colder southeast; Thursday fair north, snow south.
Indiana—Fair Wednesday; Thursday rain or snow north, rain and colder south.

THE WEATHER

New Orleans	50	Rain
Seattle	46	Clear
Tampa	56	Clear

Forecast.
Washington, March 3.—Indications for tomorrow:
Ohio — Unsettled; probably snow or rain.

BUNION TORTURED FEET QUICKLY MADE WELL

Try this wrinkle—it's a good one—thousands say you can't beat it. Soak the feet well tonight in hot water—a long hot soaking helps. Then paint on a thin coat of that old reliable "Putnam's Extractor."

Next morning the pain is gone, you feel a whole heap better. Keep up the treatment—simply follow the special directions given and off will come the bunion, away will go the corn, you'll feel like a tango artist. For foot comfort there's nothing to beat Putnam's Painless Corn Extractor, 25c at dealers everywhere. adv.

FRENCH REPORT MORE PROGRESS

Paris, March 3.—The official communiqué says: "From the sea to the Aisne there have been artillery combats, many of which were of a violent character. We gained advantage in this fighting. On the entire front in the region of Rheims, chiefly at the Alger farm, near Fort La Pompelle, the enemy delivered a series of attacks, which were easily repulsed. Between Souain and Beauséjour our progress has been continued on several points."

Four Reasons FOR SAFETY OF DEPOSITS IN THE BUCKEYE STATE BUILDING AND LOAN COMPANY, RANKIN BUILDING, 22 W. GAY STREET, COLUMBUS, OHIO.

1. Our money is loaned only on first mortgage on homes and farms.
2. These homes and farms are appraised by experts in real estate values.
3. Insurance required.
4. Our company owns no real estate—which shows great care in loaning. Assets \$8,300,000. Five per cent paid on time deposits.

Bits of Byplay
By Luke McLuke
Copyright, 1915, the Cincinnati Enquirer

OH!
The little boy from Boston had been absent from school for a week and when he returned the teacher asked him why he had failed to attend.
"I had an attack of parotiditis," replied the little Boston boy.
"You had what?" asked the teacher.
"I was suffering from a swelling of the glands near the articulation of the inferior maxillary," replied the boy.
"I do not understand you," announced the teacher. "What was wrong with you?"
"I had the mumps," explained the Boston boy in deep disgust.

Huh!
The cat ate the canary.
He didn't leave a thing.
And now the cat goes out at night
And thinks that he can sing.

Ouch!
"You players lack realism," said the colonel. "You have never known how it feels to face a storm of monster shells, any one of which would mangle you if it struck you."
"I know how it feels," said the tragedian. "I once toured South Africa in Hamlet. And in South Africa the gallery gods bombard you with ostrich eggs."

Giddap!
The candidate is a sly mutt.
He spends with open hands;
You often see him running, but
You don't know how he stands.

The Byplay Minstrels.
"Mr. Interlocutor, can you tell me why a crazy man's head is like Saturday night?"
"No, Mr. Tambo, I cannot. Will you tell us why?"
"Because it is the week end."

Names Is Names.
M. D. Cure is a doctor in Weston, W. Va.
Wuff!
The telephone girl's voice is swell.
She can't be very old;
I think that she must be a belle.
She rings when she is told.

Located.
Dear Luke—The o. f. man who says "You are a gentleman and a scholar" runs a drug store in North Columbus, O.—P. F.

Cheer Up!
Don't cuss the cold
And do not sigh;
For you're not told
To swat the fly.

Things to Worry About.
A Boston paper announces that Cole Blease is the "noctuous nigritude of occult oblivion."

A Corn Fed.
Dear Luke—I am a clerk in a country store. One day a husky girl came in and asked to see some red calico. She asked about how much it would take to make a skirt. I told her about six or seven yards. "Oh, that's too much," she said. "Give me about two yards. I only want to make a corn hoeing skirt."—Virginia.

Our Daily Special.
Success also depends on knowing what not to do.

Luke McLuke Says:
Half of the time a man forgets what size undershirt he wears. But you never heard of a woman who forgot her waist measurement.
There was a time when father could spring a story he heard at the Christy minstrels in 1879 and mother would think it awfully funny. But nowadays when father starts to tell a new story mother shuts him up with the assurance that she heard it at one of her clubs last summer.
After a man has been married long enough he discovers that the only way to argue with a woman is to grab your hat and keep on going.
Ever notice how long it takes a plate of soup to cool when you want to eat it and how soon it gets cold if you are busy and want it to stay warm?
The hi' brows are working hard to make us adopt simplified spelling. But it would help more if they could compel us to adopt simplified talking.
Before he gets a machine a man talks about the ding blatted automobiles. After he gets a machine he talks about the ding whizzled pedestrians.
A man will buy his son a rifle to play with in winter and a canoe to play with in summer. And then he will wonder why there are so many undertakers in this country.
There are all sorts of people in the world. Some men like to raise skunks and others like to carry the dead snipe of a punk cigar into a closed street car.
A corn fed may not be able to tango as gracefully as the girl who has a shape like a No. 10 needle. But the corn fed attracts all the attention at a bathing beach.
We all pay too much for experience.

MORE THAN 150 LIVES ARE LOST

Explosion of Gas Totally Wrecks West Virginia Colliery.

Hinton, W. Va., March 3.—A number of victims of the terrific explosion which occurred in the Layland mine of the New River and Pocahontas Coal company have been taken out of the wrecked pits. Most of the men who had escaped death were found to have sustained broken limbs and other serious injuries.
The indications are that another mine disaster in West Virginia has claimed between 150 and 160 lives, snuffed out by asphyxiation or after-damp, following an explosion of gas.
The greatest excitement prevails at the mouth of the mine. The majority of the entombed men are American born and many have long been residents of Layland and vicinity. Relatives are besieging the entrance to the pits and when a victim is brought to the surface harrowing scenes are witnessed.
The mine in which the explosion occurred is said to have been uniformly free from gas or gaseous pockets. According to Chief Mine Inspector Henry, only on one occasion has gas been discovered in mine No. 3, and then only a trace was located.
That the explosion was of great violence is attested by the demolition of the heavy concrete work at the entrance to the mine. The fact that the large eighteen foot fan was pumping air into the pits fifteen minutes after the explosion occurred lends strength to the belief that many of the miners have escaped asphyxiation.

Don't use Gasoline
if your gas engine is constructed to burn lower grade fuel. A slight adjustment is necessary for the change, and this I am prepared to make on short notice.

SHIPS' OFFICERS IGNORED ORDERS
Washington, March 3.—The destruction of the two American steamships, the Evelyn and the Carib, was due to the vessels ignoring the directions of the German admiralty as to the course they should pursue, according to a statement made public here by the German embassy. The embassy reiterates the charge that the captain of the Evelyn stated that the course that he followed was that which he was advised to take by a British man-of-war. The London admiralty has issued a denial of this charge. Both vessels, it is declared, erred in taking the course along the East Frisian islands instead of following directions heretofore announced to mariners.

Missionary meeting of the C. W. B. M., of the Christian Church will hold their March meeting at the home of Mrs. Frank Morris, on Clinton Ave., Wednesday afternoon at 2:15. Let every member try to be present.
SECRETARY.

EASTERN SOCIETY BELLE ENGAGED

Washington, March 3.—Miss Katherine Britton, daughter of Mr. and Mrs. Alexander Britton of this city, is reported to be engaged to Robert Beresford, former amateur champion lightweight boxer of the British army and a younger brother of Lord Decies, husband of Vivian Gould. Miss Britton was on her way to France to become a Red Cross nurse, but the trip apparently developed into an international romance, for she is said to have met Mr. Beresford on her way to Europe. While neither Mr. nor Mrs. Britton, the parents of the young woman, could be reached to corroborate the engagement of their daughter to the Englishman, associates of Miss Britton declared that they had seen letters telling of the engagement.

LOCAL MEN ARE PARTIES TO MONSTER REALTY DEAL

Double Transaction in Which Bryden Apartments in Columbus Change Hands and Hon. Humphrey Jones of This City Acquires 1450 Acres of Fine Logan County Land, and Mr. Will Worthington Becomes Owner of 500 Acre Licking County Farm, Newark Property and \$20,000 Worth of Blooded Cattle—\$200,000 Involved in Deal.

Hon. Humphrey Jones of this city who has been the owner of the Bryden apartment building in Columbus on Friday of last week finally closed up and consummated at Columbus, with the Hogsett heirs of Uniontown, Penn., a deal in which the Bryden was exchanged by him for 1450 acres of fine farming land in Logan county, near West Mansfield, Ohio. The contract for exchange of the properties was made last September.

In the meantime the Hogsett heirs made a sale of the Bryden apartments to Mr. Wm. Worthington, of this city, who this week closed a deal therefor with W. D. Fulton, a well known attorney of Newark, O., in which Mr. Worthington exchanged the Bryden for 500 acres of land in Licking county and a large amount of highly improved live stock thereon and also some property in Newark, Ohio.

The deeds between the Hogsett heirs and Mr. Jones in closing up their deal were exchanged on last Friday, but in view of the fact that Mr. Worthington had in the meantime acquired and disposed of the Bryden to Mr. Fulton a deed was made from Mr. Jones direct to Mr. Fulton which upon the face of the papers would appear to make the transaction one between Mr. Jones and Mr. Fulton. The deed was made direct from Mr. Jones to Mr. Fulton merely as a matter of convenience and to save about \$85.00 additional revenue stamps.

The Logan county land which Mr. Jones acquired is said to be an exceptionally fine body of level rich agricultural land upon which there is 600 acres of fine blue grass which has never been plowed and, according to reports it is understood that Mr. Jones contemplates converting the farm into an up to date stock and cattle feeding farm.

The farm is said to be exceptionally well adapted for use as a stock farm, it having two or three spring branches flowing through it and a dozen flowing wells upon it. The Toledo & Ohio Central railroad touches a corner of the farm, there is a railroad station within a mile, and the farm fronts some 2 1/2 miles had quarreled.

on what is known as the Greenville Treaty Line pike. The transaction involved about \$200,000, making it one of the biggest realty deals transacted recently in this part of Ohio.

DIVORCE ACTION IN COMMON PLEAS

In common pleas court, Wednesday morning, Bessie Creath filed a suit for divorce, alimony and other relief making Leo Creath, of Madison county, defendant.

The couple were married January 23, 1913, and the plaintiff accuses the defendant of gross neglect of duty.

Plaintiff further claims that defendant during the period of their married life, paid out just \$6.75 for clothing for her, and she was compelled to work and pay doctor bills. Rankin & Rankin represent the plaintiff.

STATE HOSPITAL REFUSES TO TAKE LOCAL INSANE MAN

When Lewis Holcomb, 19, adjudged insane by Probate Judge Allen, Tuesday, was taken to the State Hospital at Columbus Tuesday afternoon, the officials of that institution refused to accept the man, stating that the Home for Feeble Minded Youth was the proper place for Holcomb.

Deputy Sheriff Blue then went to the officials of the last named institution and the officers there refused to accept Holcomb, stating that it was clearly a case which should go to the State Hospital for the insane.

When both institutions refused admittance to the man, Deputy Blue returned with him to this city, and placed him in the county jail until the tangle could be straightened out.

Judge Allen later called the officials of the State Hospital and demanded an explanation of their refusal, and was informed that it was because there was no room in that institution for the man.

Don't forget the O. K. for a shave and a free ticket to Palace Theater any day except Saturday. 5214

MURDEROUS ASSAULT MADE BY FARMER WITH PISTOL

WATERLOO NEIGHBORHOOD EXCITED OVER ALLEGED ATTEMPT MADE BY GRANT TAYLOR TO SHOOT JOHN HUSTON—FIRES FIVE SHOTS AT MAN BUT FAILS TO HIT MARK—ALSO CHARGED THAT TENANT'S HOUSEHOLD GOODS WERE BROKEN UP—ARREST FOLLOWS CRIME.

The Waterloo neighborhood was thrown into a feury of excitement Tuesday afternoon by what is claimed to have been an attempt to murder John Huston, a well known farmer in that community.

Grant Taylor, another well known farmer, is alleged to have done the shooting, and, according to reports from that neighborhood, five shots were fired at Huston by the angry man, with the result that the gunner was placed under arrest for shooting with intent to kill, and taken to Circleville to answer to the principals in the trouble.

side some three miles north of Waterloo and, just over the line in Pickaway county. Trouble arose over the rental of a farm, and the men and the farm fronts some 2 1/2 miles had quarreled.

Tuesday afternoon as Huston, his son Guy, and Casper Timmons were riding along the road in front of the Taylor residence, Taylor is alleged to have thrown open the door and, standing in the doorway, fired five shots in the direction of the men, all of the shots going wide of their mark.

The Pickaway county officials were notified and are said to have placed Taylor under arrest and escorted him to Circleville.

It is alleged that Taylor became incensed over one Warren Polly moving into a tenant house, and going to the place broke up and destroyed household goods belonging to Polly.

The affair has created a genuine sensation in the neighborhood, and further trouble is feared.

DEATH CLAIMS MRS. A. E. PINE

With deep regret and sorrow many friends learned of the death of Mrs. A. E. Pine, at the family residence, on N. North street, Tuesday evening at half past ten o'clock.

Five years ago Mrs. Pine sustained a fall in which her hip was broken. Since then she has been an invalid and very frail, but showing such beautiful patience and fortitude during these years of suffering that she became doubly endeared to family and friends.

Since Sunday Mrs. Pine's condition has been serious, death coming quietly and peacefully closing a beautiful life.

On the 21st of February she had attained her 84th birthday.

For half a century Mrs. Pine's home has been in its present location on N. North street and during those years, especially the earlier ones, she has been one of the strong, moulding influences in the religious and moral life of Washington. She was one of the original "Crusaders" and always associated with the work of the W. C. T. U.; active in the interests of Grace M. E. church and identified with both foreign and home missionary work, holding district offices which extended her influence.

The home circle was a rarely devoted one. The children who survive their mother are Mrs. Minnie Brown, Mrs. T. H. Craig, Ellsworth Pine, Dr. Lucy Pine, Edward and Ethel Pine.

The funeral services will be held at the home of the daughter, Mrs. T. H. Craig, on East street, Friday afternoon at 2:30 o'clock, Rev. Ross officiating. Burial in the Washington cemetery.

DEATHS

BAYLESS

Raymond Bayless aged 10 years, died at the home of his parents in Bloomingburg, Tuesday evening at 7 o'clock. The funeral services will be held at the Baptist church of Bloomingburg at 10 o'clock Thursday morning. Burial in Bloomingburg cemetery.

FUNERAL SERVICES OF YOUNG TEACHER

The funeral of Miss Mable DeWitt held at Grace church, Wednesday morning was in itself a wonderful tribute to the sweet young girl and promising teacher who had been suddenly summoned across the bar.

The teachers of Union township with the members of the school board and Supt. Hartman, attended in a body, and relatives and friends assembled from every part of the county.

The sorrow which pervaded the church was personal and Rev. Brady, of Pomeroy, the DeWitt's former pastor in the M. E. church of Bloomingburg, conducted the services, assisted by Rev. Ross, of Grace church, and Rev. Thomas, of Bloomingburg.

The hymns were sung by Mrs. Gertrude Holland, Miss Edwards, of Bloomingburg; Rev. Thomas and Mr. Chas. Morris.

Rev. Brady followed the reading of the memoir with a sermon replete with thoughts of comfort, his theme, "God Reigns."

The pastor dwelt tenderly on the ambitious beginning made by the young teacher, which was to be rounded out to completeness in her heavenly home, and upon the memory of her beautiful, helpful life as it was associated with the home, her profession and her church.

Many wept as they passed the couch casket, in which the young girl rested as if asleep upon her white satin cushions.

The floral remembrances were beautiful, among them handsome designs from the Union township Board of Education and the teachers.

The burial was made in the Washington cemetery; The pall bearers Orville Bush, Ernest Smith, Roscoe Mahan, Orin Huff, Chas. Miller and Homer Smith.

BENEFIT CONCERT FOR WELFARE LEAGUE

Tonight at the High School Auditorium the Cecilians will present an exceptionally fine concert program for the benefit of the Welfare League.

The high class of the program combined with the benefit features ought to mean a packed house.

The Cecilians' standing as a musical club is always sufficient to arouse anticipation on the part of those who appreciate good music and the program tonight will unquestionably be one of the finest this aggregation of artists has ever put on.

The cause they are championing is greatly in need of funds and people who patronize this concert can have the double satisfaction of enjoying a musical treat and of aiding the work of the Welfare League.

Washington people do not realize the extent of the poverty and suffering in our midst and the impossibility of the League to succeed in its undertakings without sufficient means.

The entire proceeds of tonight's concert will be turned over for immediate use.

REVIVAL SERVICES AT CHURCH OF CHRIST

Revival services at the Church of Christ continue, with deep interest manifested and every indication of splendid results.

In the absence of the pastor, who was called away by the death of a relative, Evangelist O. G. Blackwell will preach again tonight, and will give an interesting chalk talk.

Rev. J. J. Tisdale, of Columbus, will fill the pulpit tomorrow night. All are cordially invited to attend the services each evening. Meeting open at 7:30 p. m.

Hard to Choose.

"Why can't she make a choice between her suitors?"
"Well, one of them is a press agent. His language is very attractive. But the other is a traveling salesman, and he treats her as if she were a big buyer."—Kansas City Journal.

ATHLETICS' 1915 BALL TEAM IS TAKING FORM

Good Bunch of Prospects Aligned For Choosing of Team—Practice Opens April 4 and First Game With Springfield Elites Scheduled For April 11—Grandstand Will be Repaired and Bleachers Extended Athletics Have New Suits.

Baseball headquarters are buzzing with plans. From the amount of prospective material lined up it looks like a prize winning outfit for Washington this season. A list of signed players and try-outs was given out by the commission Wednesday and is given below, together with the batting strength of each man last season.

Catchers—Hagerty, 200; Hungling, 344, formerly with Gem City Reserves and a next-year's recruit for Miligan State League baseball. Pitchers—Lirzon, 214; Reno, 351; Cotterill, 269; Buchanan, (south-paw).

First base—Vawters 422; Second base—Runnels, 352; Third base—

open—Pine, Judy and Cotterill try-outs.

Field—Noon, 298; Mobley, 325, formerly in southern organized ball; Walton, 360, leading batter of Gem City Reserves last year; Passmore, 300; Jones, 275.

The slate is a good one and the return of many of the old timers will be welcomed by the fans.

The first practice game will be held April 4 between two squads of the club, for the purpose of choosing a team and placing the players.

The opening game of the season is scheduled for April 11 against the Springfield Elites. These datings are tentative and will depend on the weather.

Carpenters will be at work soon repairing the grand stand and constructing an extension to the bleachers, which have proved inadequate. A new assortment of bats have been secured by the club, together with new suits. These latter are of white, heavy material, with dark blue socks and belts.

veloped bearing upon this work and every wheel within a wheel seems doing its part, working well in this club effort.

A purely literary club is a power when fully organized and if properly informed they can insist on reforms for the children everywhere.

The co-operation of clubs through the city councils may amount to a great deal. The recreational idea should be extended into the country and educational campaigns could well be carried out. Many clubs make efforts in a musical way and also to substitute something for the dance hall with its attraction and allurements. Much of club women's value is in creating and re-creating sentiment. Manual training may mean a great good and Mrs. Pavey warmly congratulated Washington upon the Y. M. C. A. success.

Co-operation with other clubs in helpfulness for needy girls, those who need friends and a little substantial aid—this pays large dividends and the world is better for all such effort. We can all well say, "God give me love and care and strength to help my toiling brother."

A rising vote of thanks was given to Mrs. Pavey and those who assisted in the program.

A reception with light refreshments served, closed the evening.

Mrs. M. S. Daugherty extended the hospitality of her home to the Guild of St. Andrews Episcopal church Tuesday afternoon.

The meeting was one of pleasurable sociality.

PERSONAL PARAGRAPHS

Rev. A. W. West left Wednesday morning on a business trip to Tippecanoe City. He returns Thursday.

Mr. and Mrs. Albert McCoy, Mr. and Mrs. Martin Hughey went to Columbus Wednesday to see David Warfield in "The Auctioneer."

Mr. W. R. Smith and Mr. Willis Lansing were business visitors in Columbus Wednesday.

Mr. E. E. Ginn and family moved Tuesday from Columbus into one side of the Williams Craig double house on East street.

Mr. and Mrs. Isaac Barger, of Leesburg, were guests of their son, Mr. Taylor Barger and family, Wednesday. The baby daughter of Mr. and Mrs. Taylor Barger is recovering from a long illness.

Mr. Robert Eddington underwent an operation at the Fayette Hospital Wednesday morning.

Mrs. Henry C. Shoop is rallying nicely from a serious operation at the Fayette Hospital Tuesday.

Mrs. John Eddington, who was called here by the death of her brother, Mr. James Skinner, and remained since then at the Skinner home, returned to her home in Nelsonville the first of the week.

Mr. Al Melvin, who has been seriously ill at his home on Paint street for several weeks is recovering quite rapidly, and expects to be out again next week.

County Supt. of Schools Frank M. Allen, is still confined to his home, and his recovery is slow. He was somewhat better Wednesday.

Mrs. Brooks Hughey is visiting at the home of her parents, Mr. and Mrs. Lelsure, in Dayton.

Mr. and Mrs. L. D. Fite, who have been the guests of Mr. and Mrs. Ed Fite, returned to Cleveland Tuesday.

Mr. J. F. Rogers has returned from a trip to Florida.

Mr. and Mrs. Carl Summers visited in Jackson the first of the week.

Clark Coffey was able to be removed from the Fayette Hospital Tuesday to his home on Leesburg avenue, recovering nicely from an operation for appendicitis.

Mr. Maurice Marshall, of Pittsburg, spent the first of the week with his parents, Mr. and Mrs. J. R. Marshall.

Mrs. Lewis Ward, of Xenia, is visiting her niece, Miss Helen Birley, Mrs. Wm. Fogle and other friends.

Mr. Wm. Morris, of Bloomingburg, left Tuesday for Baton Rouge, La., to visit his son, Mr. Harry Morris, who is in charge of the State Experiment Station. He will also visit in Chattanooga Tenn., and other places.

Mr. and Mrs. Alfred Brown came over from Middletown Wednesday evening, called by the death of Mr. Brown's grandmother, Mrs. A. E. Pine.

Miss Arta Moore has returned from Greenfield, where she was called several days ago by the illness of her father.

Mr. Alvin Ferrell, wife and little son Richard Morton, and Mr. D. T. Patrick and Miss Mary Ferrell, of Leesburg, were the guests of Mrs. T. K. Perdue and family, Wednesday.

Mr. Will Wood, well known short-horn breeder of Williamsport, accompanied Messrs. Wm. Worthington and Ben Jamison on a business trip to Licking county Wednesday.

The Messrs. Rife and Bainter came up from Good Hope to attend the funeral of Miss Mabel DeWitt.

WONDERLAND!

Friday **AMBUSHED** Friday

Another of those Essanay successes abounding in mystery and adventure which delight any audience—featuring Francis X. Bushman.

Starting Tuesday Exploits of Elaine Starting Tuesday

A wonderful serial detective play, featuring Arnold Daly and Pearl White. A wonderful mind that unites with surpassing scientific knowledge a diabolical malvolence—that's "THE CLUTCHING HAND."—Clues? Yes. Craig Kennedy can find them, but the name of the super-criminal is mystery itself. With each episode comes a surprise—with each surprise an intenser interest, and always the mystery deepens.

GREAT PHOTO PLAY AT THE PALACE

The Palace Theatre yesterday and today is putting on an unusual photo play in "The Spoilers," by Rex Beach, a feature which has enjoyed exceptionally long runs in the larger cities of the country at high admission prices. A large attendance has marked the opening exhibitions at the Palace.

The photo play marvelously presents Beach's intensely exciting drama of the gold fields of Alaska, centering around Nome and the wild scenes of that adventurous element which risks everything in the craze for gold.

The parts were splendidly played by William Farnum as Glenister; beautiful Kathryn Williams as the fascinating girl of the dance hall; Thomas Santschi as the masterful McNamara; Bessie Eytan as Helen Chester and other splendid actors is the "Broncho Kid," "Slapjack" and the important members of the cast.

The storm scene, the dynamiting of the Midas mine and the terrible hand to hand fight between Glenister and McNamara, their antagonism fired by love for the same girl, were stamped upon the audience as marvelous examples of the expert art of the photo drama.

Tonight will be the last opportunity to see "The Spoilers."

In Social Circles

Among the number of distinctively David masterly interpretation, and out of the ordinary Browning Club sessions this winter none have been more thoroughly delightful, and offered greater incentive to club efforts, than the program and reception of Tuesday night, in compliment to Mrs. C. C. Pavey, President of the Columbus Federation of Women's Clubs.

The Daughters of the American Revolution, Cecilians and Clonians were also guests for the evening.

The club president, Mrs. Kerr, presided in opening and announced that a Browning Club meeting, in charge of the art department, would be held at the High School building on March the sixteenth.

The department of Literature presented a choice program with Mrs. Austin F. Hopkins in the chair.

The program was opened by a superb rendering of Handel's "Largo" by Mr. James Kneisley, violinist, and Miss Light, pianist. As an encore the musicians played "Minuet"—Beethoven.

Mrs. Elizabeth Carpenter gave a fine resume of Browning's "Saul," giving to the characters of Saul and children. Many subjects are de-

Two beautiful ballads, "Memories," Edward German and "The Years of Spring," Clara Rogers, were sung by Miss Gardner, Miss Light accompanist.

It was with much pleasure that the club women present welcomed Mrs. Pavey, formerly active in the club and social life of our city, and now recognized as one of the brilliant club women of Ohio, holding a position of much responsibility as the president of the Columbus Federation.

After expressing the reciprocal pleasure aroused by the meeting of her old friends Mrs. Pavey entered at once into the essentials of club life and made a most interesting short address.

She spoke of the co-operative value of civic federation and how much for the betterment of our towns and cities can be developed from it. In Columbus one afternoon each month the women gather to study the condition and needs of the life and children. Many subjects are de-

SEWER FILLED IN ON EAST COURT

Following the injunction granted in common pleas court Tuesday evening, to prevent the city from tapping the brick sewer on East street, Service Director Chas. Gerstner placed men at work filling up the big excavation, and, in all probability the North street sewer will obtain an outlet at the intersection of East and North streets.

NORTH STREET PAVING AWAITS GOOD WEATHER

Contractor S. T. Knight, and Engineers Noble and Doie, of Columbus in charge of the North street paving, arrived in the City Wednesday to prepare for the opening of the work.

Contractor Knight stated that they would be ready to start as soon as the weather permitted. 700,000 brick, to be used on the improvement will be shipped in this month.

W. R. C. The Woman's Relief Corps will hold a Kensington at the home of Mrs. Chas. Briggs, on Hinde street, Friday afternoon at 2:30. A full attendance is desired.

SAVE IT NOW!

You'll need it Later!

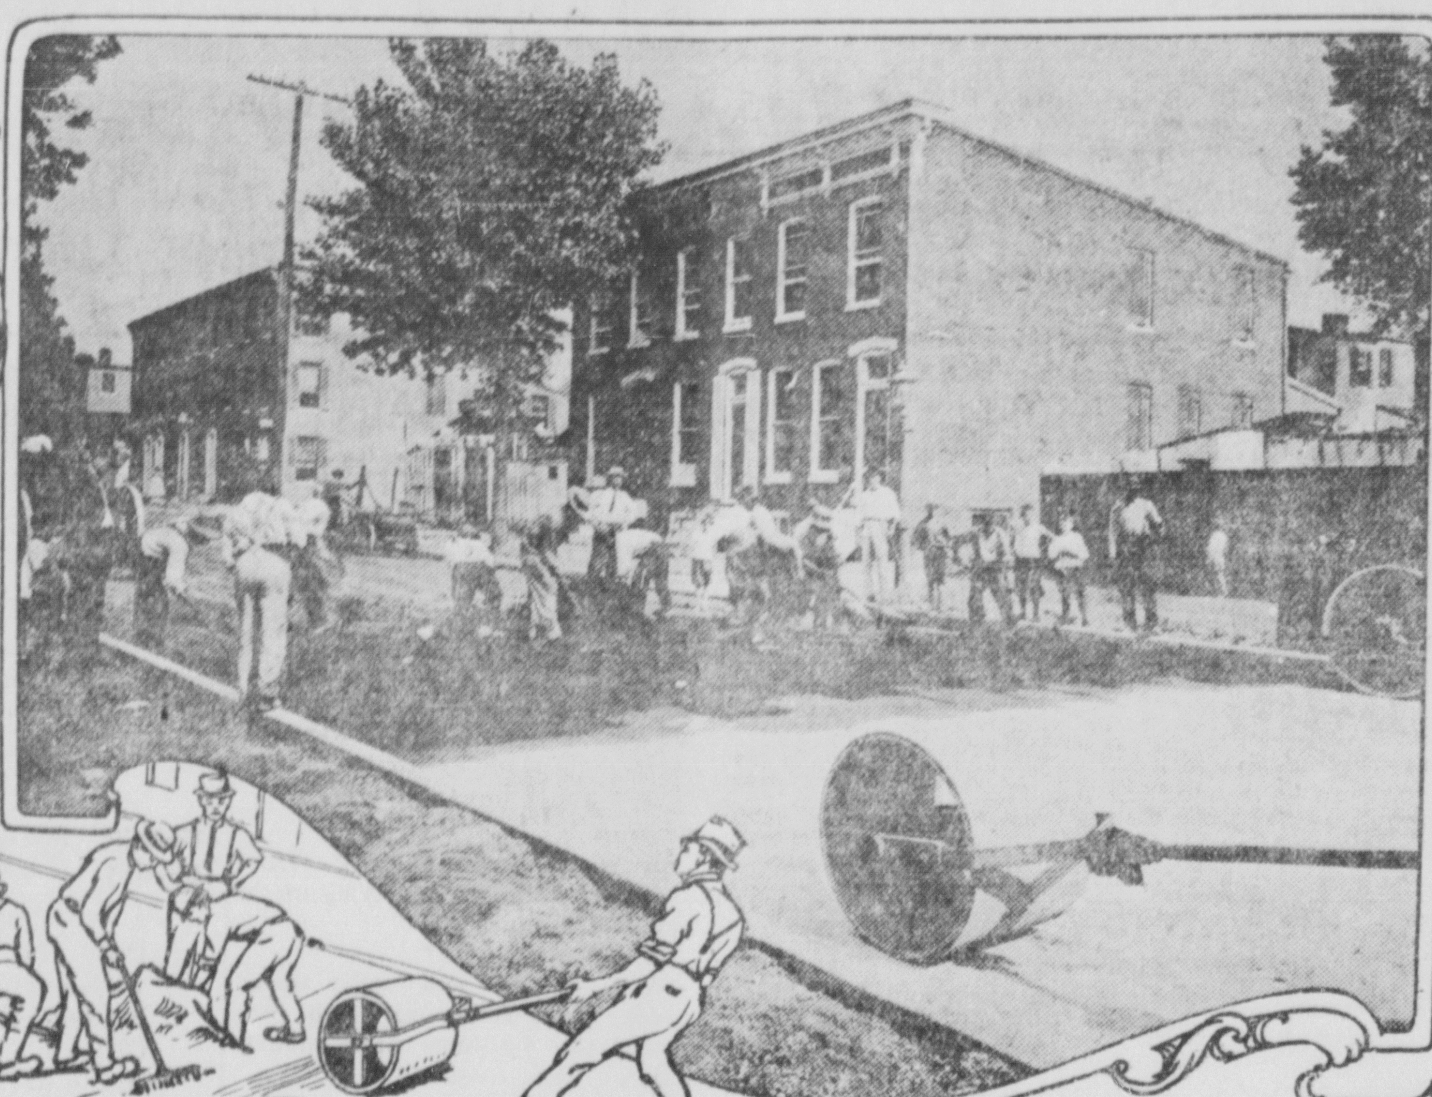

YES, by all means, SAVE IT NOW! Over 40,000,000 farmers in the United States have had a wonderfully prosperous year, with prices way up for the biggest crop of wheat in years. Perhaps you are one of these LUCKY persons. If so SAVE IT NOW! Don't spend it. Make hay out of it while the sun SHINES. Next year may not be so good, although we hope it will be. Take time by the forelock. SAVE IT NOW! Tomorrow may be TOO LATE.

Washington Savings Bank
WASHINGTON C. H., OHIO.

WANTED—More and Better Pavements!

IN AN IOWA TOWN OF LESS THAN
3,000 PEOPLE

A SURE SIGN OF PROGRESS

IF A TOWN AS SMALL AS THIS CAN HAVE
STREETS GOOD AS THIS, SO CAN WE.

In view of the fact that the matter of street paving is a subject in which all are interested, The Herald is publishing this page at the request of parties interested in the manufacture of Asphalt Paving Material.

This paper assumes no responsibility for the statements of fact or arguments made, but publishes the article for the information of the people of Washington with this statement, that it is prepared by interested parties. It is not a paid advertisement. It is rather an interested party presenting his argument to the public.

RESOLVED:

That this community wants and is going to get more good pavements.

THIS is a resolution to which every citizen can subscribe. If we mean what we say we shall get the pavements.

What other places have done this town can do.

Good pavements mean increased property values, health, beauty and comfort and municipal progressiveness all along the line.

Good pavements are no longer a luxury that only big cities can enjoy. They are a necessity that no progressive municipality can do without.

We can't afford it? Oh, yes, we can. What we can't afford is to flounder around over rough, dusty, muddy streets.

What Other Towns Have Done.

A few years ago there seems to have been a concerted movement among Iowa municipalities to pull themselves out of the mud. Now many number of towns in that state have pavements as good as New York's or Washington's. These towns include Charles City with 6,000 population, Webster City 5,000, Winterset 3,000, Bloomfield 2,250, Indianola 3,500, Boone 10,000, Shenandoah 5,000, and Hamburg with only 2,000 people.

Of course Iowa towns are not the only ones that have pulled themselves out of the mud. Oklahoma was a built to order state—that is, it did not grow slowly; it sprang into being—and what do we find there? Enid, Tulsa, Shawnee, Chickasha, El Reno and other towns with hard, smooth pavements such as are usually associated with old, rich and populous cities.

It would require a page of this paper to catalogue the smaller communities that have proved that where there is a will for good pavements there is also a way to get them. This is the teaching of an investigation that has extended across the continent from Rock Hill, S. C., through the little town of West Plains, Mo., to Roseburg, Ore.

A Prime Essential in Progress.

No time was wasted in big cities, for that would have proved only what we all know—that there good pavements are considered a prime essential of progress and always go along with it. What was sought for was evidence that no community is too small to be well paved.

This investigation developed stories of municipal uplift that do not get into the magazines, but that are no less enlightening and inspiring on that account.

Let's start at Rock Hill, S. C., a town of 7,500 people. It had never had any modern pavements until a year or two ago. Then, after a great deal of talk, the authorities decided to ask for bids on asphalt paving for two or three main streets. The owners of the abut-

ting property were to pay their share. Of course some of them objected.

On one of the streets was a piece of property owned by two ladies, who made a regular campaign against the improvement on the ground that they could not afford it and were so successful that the city and the contractor agreed to pave up to their property, skip it and resume the work on the other side. But before this actually happened the ladies came down to the city hall, signed a petition to have the street paved in front of their property and joined the ranks of "asphaltettes."

In this same town the secretary of the chamber of commerce had been offered a piece of property for \$700 on one of the streets to be paved. After the paving was done he found that the price had gone up to \$1,250 and that there was an eager demand for the same lot that had gone begging at \$700.

But this article is not about the increase of property values that good pavements bring. That will come later. What we are trying to show now is that what other towns have done this town can do. Most, if not all, of the towns from which our evidence is drawn are smaller and less wealthy than our community.

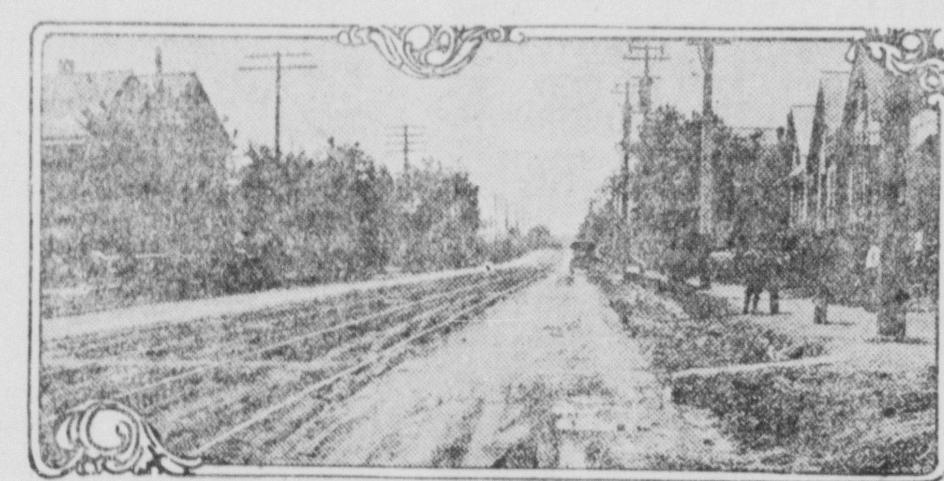

Look, for instance, at West Union, Ia., a little place of less than 2,000 inhabitants that never had any paving until 1914. Then it saw other Iowa villages getting good pavements and made up its municipal mind to have them in West Union. Last spring 30,000 yards of paving were contracted for. Upon their completion the people were so well pleased that a boulevard lighting system was ordered, to be in keeping with the pavement.

The merchants and residents of the town became imbued with the improvement idea, and stores and residences began to freshen up. The lumber dealers, builders, carpenters and painters say that 1914 was the greatest year for business the town ever had. The fact is that West Union has changed from a shabby, slow going country town to a well kept little city, busy, proud of itself and with every resident turned into a "booster."

No Trouble Paying the Bill.

And all of this is directly traceable to good paving. The people had no trouble paying for it, for the share of each was small and the time allowed for payment long enough to make it easy for every one.

It is a noticeable fact the country over that when an old town begins to lay good pavements and when a new

A STREET LIKE THIS IS A DISGRACE

town starts out with good pavements in both cases the good work is kept up. In the case of older communities, once started, they are never content until all the principal thoroughfares are paved. The resident of the unpaved streets sees how good the paved street looks and demands the same thing for his street.

New towns and suburbs that start life with good pavements rarely go backward. A man who has lived on a well paved street that is never muddy or dusty, that can be cleaned and that drains off quickly is never willing to go back to living on a street that is inches deep in dust half the year and a mudhole the other half.

Another advantage of smooth streets is that they count heavily in favor of healthfulness. Half the advantage of a sewerage system is lost unless there are smooth pavements properly drained into the sewers. The right kind of pavements can be laid so that there is literally no place for refuse and dirt; rain washes them clean or they can be flushed. The dust and dirt of a roadway are not only injurious to health, but they are a nuisance, especially annoying on motor traveled highways.

Advertising Value of Good Streets.

Still another factor well worth taking into account is the advertising value of well paved streets. No other improvement makes so immediate an impression. The men who have been most successful in suburban real estate development say that there is nothing like a good pavement and sidewalks to make lots sell. These are the things that people notice first.

Last spring a New York town lost the biggest industry it ever had a chance to get because the men who went there to look into the prospects for locating a plant found the streets

which had a better pavement. A petition for the immediate paving of Walnut street at the expense of property abutting with asphalt was promptly signed by every local property owner. Following the repaving of the street, it was noticed there was a prompt return of the traffic which naturally belonged to it.

"Since this improvement was secured for Walnut street the property owners on Locust street have induced the city council to extend a modern pavement to the extreme west end of the street and to remove an antiquated and rough, though by no means worn-out, pavement, hoping thereby to regain some of the lost ground."

Start Right.

It was said above that communities that once started to pave their streets properly never went backward. This is strictly true, but note that word PROPERLY. Where apparent exceptions to this rule are found it is also discovered that what the backsliding town tried of was not good paving, but bad paving. Towns sometimes get swindled or they try to save money on their streets and find that there was no saving, but that, on the contrary, their money has been thrown away on imitation asphalt or poor construction or some patent paving fad of which nearly every year sees a new example.

The cities that have the best pavements have been laying the same kind with the same materials for more than a generation. They know, and when their example is followed there is no risk taken and no chance that any community will regret its investment and go back into the mud and dust.

Property owners, those who use and pay for pavements, ought to know something about them and, possessing that knowledge, to have something to say about what their pavements shall be. Intelligent public opinion on public improvements is the greatest assurance the community can have of good work. Of course we must have expert advice and assistance. But we must think for ourselves, too, and be able to tell experts and engineers what we want them to do for us.

The places where money has been wasted on paving are those places where the people were too indifferent to demand what was best for them and where, in consequence, somebody "put one over." Rutted brick, cracked concrete, bulging wood block and raveling imitation asphalt are the poorest sorts of investment. Really good pavements are the best kind of investment, but

Business Follows Paving.

"Observing business men, particularly the retail merchant and the realty agent, have learned that business follows good pavements. This fact is particularly noticeable since the advent of motorcars and the important passenger traffic this means of transportation has developed."

"The truth of the above was forcibly brought to the attention of the property owners and leaseholders on Walnut street, Des Moines' most important business street, a little more than a year ago. The pavement on this street, because of poor railway track construction and other causes, became somewhat defective, and it was plainly seen that vehicle traffic avoided Walnut street, giving preference to its most formidable rival, Locust street,

not to be obtained except by eternal and intelligent vigilance.

Washington's Experience.

Washington, D. C., is one of the best paved cities in the world, as it should be as the capital of the United States. Captain Mark Brook, engineer commissioner of the District of Columbia, recently told the members of the Engineers' club of Baltimore how Washington had achieved its results. "Washington is a city of asphalt pavements," he said. "It has in round numbers 4,800,000 square yards of street pavements, of which 3,344,000 yards—150 miles—are sheet asphalt. It is safe to assert that, cost and everything else considered, bituminous pavements of the sheet asphalt or asphaltic macadam type are as near the ideal form of pavement as any we have, and I also think that among the eastern cities the amount of such pavement may be taken as an indication of the condition of their streets."

"Washington pavements will bear comparison with any I have seen, both in cost and quality. Such measure of success as we have attained has been principally due to the fact that our paving problems have always been engineering questions and not political issues; that we have very largely confined our efforts and expenditures to the improvement of a single type well adapted to local conditions."

Others have paid for experience in paving. The advantages are too well known to require further proof. We, in common with other progressive communities, want good pavements. The question is not, Can we afford them? It is, Can we afford to do without them?

This newspaper intends to keep this subject to the fore until it can be said that this community, at the least, is among the best paved towns in the state.

Those who may now be indifferent or even opposed to this improvement will soon be converted.

Those who are already with us can help by circulating the gospel of good pavements on all occasions.

Watch for the special articles on paving that will appear from week to week in these columns.

QUICK ACTION WANTED.

When one is coughing and spitting—with tickling throat, tightness in chest, soreness in throat and lungs—when head is aching and the whole body racked with a cough that won't permit sleep—he wants immediate relief. Thousands say Foley's Honey and Tar Compound is the surest and quickest acting medicine for coughs, colds, croup and la grippe. Blackmer & Tanquary.

Wonderful Memory.

A few years ago there was a teamster in Milwaukee named Israel Mullin who was able to tell at the end of the week the number of loads and their weights he had hauled for the six days past without so much as a figure on paper. It would have been useless to furnish him with paper and pencils. His memory was found to be unerring. He was dismissed once for using liquor too freely and a man appointed to his place who used pencil and paper. The first week the pencil and paper man made over a dozen errors, and Mullin got his job back.—Pittsburgh Press.

WILL NOT SINK NEUTRAL SHIPS

Germany to Follow Rules of
International Warfare.

NAMES CERTAIN CONDITIONS

Insists on Abandonment of Use of
Neutral Flags by Merchantmen of
Countries Hostile to Germany—Will
Continue to Employ Anchored Mines
but Would Consider Abandonment
of Floating Ones.

Berlin, March 3.—In its reply to the
American note concerning the Ger-
man naval war zone, the German gov-
ernment agrees that, under certain
conditions, its submarines will halt
and investigate merchantmen, but
will proceed against only such vessels
as are found to be carrying contra-
band or are owned in nations hostile
to Germany.

The reply declares Germany's readi-
ness to accept virtually all of the
American proposals except the one
which would restrict the use of an-
chored mines to purely defensive pur-
poses. The German government ex-
presses the belief that belligerents

A Food and Nerve Tonic
is frequently required by old age. We
always recommend
Rexall Olive Oil Emulsion
containing Hypophosphites
an ideal combination for this purpose.
Blackmer & Tanquary.

cannot afford to abandon entirely the
use of anchored mines for offensive
operations. It is willing to consider
the abandonment of floating mines.

In case German submarines take
action, after investigation, against
merchantmen carrying contraband or
owned in hostile countries, it is
agreed that such action will be in ac-
cordance with the general rules of
international law. This presupposes,
however, the abandonment of the use
of neutral flags by merchantmen of
hostile nations and the arming of
such merchantmen. If such tactics
were employed, Germany contends, it
would be impossible to restrict the
operations of submarines in this man-
ner.

The reply suggests that there be
constituted in the countries concerned
American commissions to which sup-
plies of foodstuffs for the use of civil-
ian populations could be consigned.
This plan, it is said, is contemplated
in the American proposals. The reply
also suggests that these commissions
should be allowed to import and con-
trol the distribution of other articles,
especially fodder, which are on the
contraband list in the declaration of
London. Germany states that inter-
ference with articles on the absolute
free list in the declaration of London
should be abandoned.

GERMANS ARE FALLING BACK

London, March 3.—The Russian
armies are now engaged in battles
along practically the whole eastern
front. In north Poland, having by
means of large reinforcements been
enabled to resume the offensive, they

are slowly pushing the Germans back
to the East Prussian frontier. In the
Carpathians and in eastern Galicia
they have been engaged for several
days in resisting fierce and repeated
attacks by the Austrians.

Except in front of the fortress of
Ossowetz, which they are still bom-
barding with their heavy guns, the
Germans, according to the Russian
official reports, have turned their
backs on the Russian railways—the
first objective when they emerged
from East Prussia on the heels of the
retreating Russians a short time ago.
In some places, however, they are
fighting stubborn rear guard actions,
which have led to close and severe
fighting.

STONE ISSUES A STATEMENT

Chicago, March 3.—Warren S.
Stone, grand chief of the Brotherhood
of Locomotive Engineers, sees no
hope for an equitable distribution of
the profits of the railroad industry so
long as the financial control and ad-
ministration of the great carriers re-
main unregulated. In his opinion the
issuance of fictitious securities have
mortgaged the increasing productiv-
ity of the business for years to come
and have enabled the financiers be-
hind the railroads to make plausible
revenues. His ideas on this subject
are embodied in a statement sub-
mitted to the board of arbitration
is hearing the railroad wage case.

Mr. Stone contends that, despite the
roads' excesses of the past, they
are still financially able to pay rea-
sonable and fair increases in wages.

ALLEGED DEFRAUDERS PLEAD NOT GUILTY

New York, March 3.—George Koet-
ter, Adolph Hachmeister and J. Pap-
pinghaus, three of those indicted with
the Hamburg-American line for con-
spiracy to defraud the United States,
pleaded not guilty in federal district
court and were released in \$5,000
bail apiece.

Karl Buenz, general representative
of the line in this country, who is also
indicted, was ill with a severe cold.
The indictments charge that the fraud
was perpetrated in false manifests
and false destinations given to get
clearance papers for the steamships
Lorenzo and Berwind. They are sup-
posed to have loaded the German
cruisers Karlsruhe and Dresden. The
Lorenzo was captured in the act and
condemned by the British prize court.
The penalty in convictions under the
indictments brought may be two
years' imprisonment or a fine not ex-
ceeding \$10,000, or both.

INSPECTION OF OIL ATTACKED

Columbus, March 3.—Ohio's oil in-
spection law, which yields a net re-
venue of approximately \$100,000 an-
nually to the state, was declared to be
unconstitutional. The Franklin county
court of appeals was reversed.
The supreme court holds that only
enough can be charged for the inspec-
tion. Although the decision does not
abolish the oil inspection department,
comprising a chief at \$3,000 a year
and forty-one deputies at \$1,200 each,
it eliminates the chief reason for its
existence—production of revenue—
and it is doubtful if the general as-
sembly will make the downward re-
vision of inspection fees necessary to
continue it.

MINE WASHES ASHORE KILLS FIVE CIVILIANS

Antwerp, March 3.—Five civilians
were killed by a mine which was
washed ashore at Katschoek, on
North Beveland island. It is thought
that boys tampered with the mine.

PIMPY? WELL, DON'T BE!

People Notice It. Drive Them
Off With Dr. Edwards'
Olive Tablets

A pimply face will not embarrass you
much longer if you get a package of
Dr. Edwards' Olive Tablets. The skin
should begin to clear after you have
taken the tablets a few nights.
Cleanse the blood, the bowels and the
liver with Olive Tablets.
Dr. Edwards' Olive Tablets are the
successful substitute for calomel—
there's never any sickness or pain after
taking them.
Dr. Edwards' Olive Tablets do that
which calomel does, and just as effec-
tively, but their action is gentle and
safe instead of severe and irritating.
No one who takes Olive Tablets is
ever cursed with a dark brown taste,
a bad breath, a dull, listless, "no good"
feeling, constipation, torpid liver, bad
disposition or pimply face.
Dr. Edwards' Olive Tablets are a purely
vegetable compound mixed with olive oil,
you will know them by their olive color.
Take one or two nightly for a week.
See how much better you feel and look.
10c and 25c per box. All druggists.
The Olive Tablet Company, Columbus, O.

PRESIDENT TO REQUEST MORE LIGHT

Wants to Know Whether Actual
Blockade Is Intended.

CORRESPONDENCE TO FOLLOW

Allied Note Defines Policy of England
and France in General Terms With-
out Disclosing Exact Means of En-
forcing Decree—Washington Inter-
ested Particularly in Method of En-
forcing the Mandate.

Washington, March 3.—The protest
of the United States to the new Anglo-
French policy of shutting off all trade
with Germany and her allies will take
the form, in the first instance, of a
request for more light.

This government will want to know
whether it is an actual blockade that
Great Britain and France intend to
enforce, or whether the same results
are being sought without assuming
the actual responsibilities imposed by
international law for maintaining a
blockade. If the latter is the case, as
now seems certain, this government
will make it clear that the United
States as a neutral possesses certain
clearly defined rights, and that no na-
tion has the right arbitrarily to
change the rules of war in such a way
as to infringe upon the hitherto ac-
knowledgeed privileges of neutrals.

President Wilson himself told call-
ers that he was not yet prepared to
answer the question whether the An-
glo-French note declares an actual
blockade or goes further than that.
The impression which the president
had formed was that the note did
seek to establish a blockade. The
precise meaning of the communica-
tion, however, would have to be as-
certained through further correspond-
ence.

The note delivered to the state de-
partment defines the policy of En-
gland and France in general terms
without disclosing the exact means
by which these governments intend
to enforce this policy. It is the meth-
od of enforcement in which this gov-
ernment is particularly interested, for
upon it will rest the decision whether
or not the proposed blockade is in
accordance with the rules of interna-
tional law, or whether, as is generally
believed, it is extra-legal and some-
thing that has been designed to meet
the present emergency.

Wilson's Position.
President Wilson made it clear that
he has emphatic conclusions that no
nation has the right to change the

COAL!

Pocahontas, Keystone, Hatfield,
Sunday Creek, Spruce Fork, Ky
Gem, Ky., Hickory Ash, W. Va.

A. C. HENKLE

rules of war. He realizes that changes
have been made in the condition of
waging war and in the means by
which a blockade may be enforced,
but he thought it proper to summarize
the situation in the statement that
the conditions of war have changed,
while the rules of war have not.

It is generally acknowledged here
that, whether the Anglo-French opera-
tion may properly be described as a
blockade, the results aimed at by the
allied governments are those of a
blockade. One course suggested was
that the United States government,
after asking Great Britain and France
to state whether their purpose was to
effect a blockade of enemy coasts,
should call upon them to conform to
the very definite rules of blockade.

The care with which the two gov-
ernments refrained from the use of
the word blockade was pointed to as
indicating that the objection of neu-
trals that the proposed operation
does not conform to the rules of a
blockade was anticipated. The two
governments have left themselves
free to deny that they were attempt-
ing a blockade.

That American interests are bound
to suffer seriously under the new pro-
gram of the allies is the official opin-
ion here.

ATTEMPT TO DISCOURAGE FAYETTE COUNTY FARMERS

Echo From Defective Concrete Silos Built in This and Other Counties Last Season—Anonymous Booklet Circulated—Fayette's Leading Farmer is Firm Believer in Properly Constructed Concrete Silos.

Fayette county farmers are receiving copies of an anonymous booklet, evidently calculated to discourage the erection of concrete and tile silos, as the booklet contains numerous pictures showing concrete silos cracked and wrecked.

It will be recalled that in this county a number of concrete silos were erected last year, and that later fissures appeared in the walls of the silos so that they either were abandoned, or were virtually worthless. An investigation was made and an analysis of the concrete mixture used in the defective silos, resulted in the discovery that not enough cement had been used, and the mixing had not been carried out properly, with the result that the silos failed to stand the test and proved worse than worthless.

The contractors, who were from an adjoining county, agreed to make good the losses, it is said, and new and proper silos will be constructed this year to supplant the old ones.

Inquiry made of Hon. Humphrey Jones, the county's largest farmer, and who has many concrete silos on his big farms—elicited the information that concrete silos had proven highly satisfactory, but it was necessary that they be constructed properly; that the right kind of material in the proper proportions be used, and the concrete substantially reinforced.

Mr. Jones has experienced no trouble whatever with the silos which were properly constructed, and some of the monster concrete "barrels" upon his farm are among the largest in the state of Ohio, and have undergone a thorough test.

Quite a number of new silos will be erected by Fayette county farmers this season, so that more ensilage than ever before will be fed during the winter of 1915 and 16. Part of the new silos will be of wood, part of reinforced concrete, and others of concrete blocks.

CITY OFFICIALS DENY CLAIMS

STATE THAT SEWER MENTIONED IN INJUNCTION SUIT IS CITY PROPERTY AND THAT IT IS SUFFICIENTLY LARGE TO MEET DEMANDS—MUCH INTEREST AROUSED IN SUIT.

City authorities, called in defense by a petition filed against the City and Service Director Gerstner Tuesday by Frank A. Chaffin in the common pleas court, expressed themselves confident Wednesday of being able to secure a dissolution of the court's injunction.

The plaintiff, in his petition objects to the city tapping into what he alleges is a private sewer running north from Court street. City officials contend that the sewer was built by the city, has never been privately owned and that they can secure the testimony of men who assisted in the construction of the sewer to back their declaration.

The plaintiff further holds that the sewer is inadequate to the demands now placed upon it and that in time of heavy rains it has caused considerable flooding of the streets and cellars in its vicinity. In contention the city officials state their conviction that the sewer, being, as they declare, the largest in the city, is quite large enough and that the flooding is rather the result of clogged catch basins.

The case has aroused no little interest in the East Court street neighborhood, where the sewer begins, and it is said that property owners there will take a hand in the protest.

Hartman Theater

World Famous Magician to Play Engagement at Hartman Theater, Columbus, March 4-5-6th.

One of the biggest novelty shows of the season will be at the Hartman Theater, Columbus, next Thursday, Friday and Saturday, March 4-5-6th, with Saturday matinee, when Leroy Talma and Bosco and a notable company of magicians, fakirs, illusionists and jugglers come on the round-the-world tour. Leroy, Talma and Bosco for more than a decade have been regarded as the foremost mystery people of Europe. At the beginning of the European war the company was playing in Australia, and consequently their route was changed to America. It is their first tour of through this country.

At their initial engagement in San Francisco early last December, they were declared by the press to be among the greatest magicians ever seen in that city. The company is the largest of its kind ever seen in Columbus, their properties and scenery requiring three baggage cars to carry. One hundred head of live stock is carried, along with three huge jungle-bred African lions.

The work of these artists is so clever that several other magicians who have seen their tricks profess themselves as much confused by the performance as the balance of the audience.

BLOOMINGBURG TO HAVE CHATAUQUA

Bloomington is to have a chautauqua this summer, the committee in charge of arrangements, of which Mayor O. W. Creath is chairman, having so announced Tuesday.

The date has not been set but the chautauqua will be booked from the Central Chautauqua Association of Indianapolis and will be held on the Bloomington school grounds.

CHILDREN WILL BE GUESTS OF THE "Y"

Starting a week from Saturday the Y. M. C. A. will entertain as its guests each Saturday morning pupils from the grades of the various schools of the city. The children, on these occasions, will be given free access to the pool, showers, gymnasium and game room.

EMBARGO PLACED ON GREENE COUNTY

No live stock can now be shipped out of Greene county over the railroads, as a result of market centers closing their gates against Greene county live stock.

Disregard of quarantine is blamed for the refusal of market centers to take the stock, and all railroads have refused to accept shipments.

TWO FORTS SILENCED

By Associated Press.
Berlin, March 3.—Two of the Russian forts at Ossowetz, in Russian Poland, have been demolished and their guns silenced, according to a dispatch printed today in the Cologne Gazette.

ONLY \$700,000 OF ESTATE NOT ACCOUNTED FOR

By Associated Press.
Columbus, March 3.—Charges of "gross manipulation, bad faith and dishonesty" against W. Harry Elberst, M. Leo Corbett and the late Cornelius A. Hayes, trustees of the million dollar estate of the late Henry C. Pirring, are contained in the report of Special Master Commissioner Paul A. DeLong for the Probate Court, and the exceptions to their accounts filed by J. Edgar Butler, as guardian of the Pirring children.

Mr. Butler's exceptions to the report of the trustees state that about \$700,000 of the trust property of the estate is not accounted for.

RED HORSES WIN FEBRUARY CONTEST

The Red Horses, captained by Harold Hays, won the February credit contest among the Y. M. C. A. boys with a total of 1219 credits, the biggest number yet made. Captain Roland Slagle's Silver Foxes ran a close second with 1134.

Recently The Boys' Department heads have added new guests to its credit roll and this accounts in part for the increasingly large scores of the later winners. Credits are now being awarded for church and Sunday school attendance, and individual essays of merit on Old Testament characters are awarded 25 points.

The winners will be treated to a supper some time next week. They are: Harold Hays, captain; Paul Bishop, Marvin Craig, Oliver Tracey, Warren Baker, Carrol Flee, Kenneth McCrea, Robert Armstrong, Richard Grafton, Clark McDele, Harold Counts, George O'Brian, Walter Weaver.

WESTERN UNION IS TO USE NEW METHOD

In accordance with a new order which has just become effective in all Western Union offices, the exact time a message is sent will be placed on the message in plain figures, as well as the time the message is received.

Heretofore the company has used a code, so that the time a message was filed was unknown only to Western Union operators. With the new order greater efficiency is expected in the delivery of a message.

PRINCETON PLAYERS DRAW LARGE CROWD

The Princeton Players, last number of the Bloomington Lecture Course, drew the largest crowd of the season's numbers at the Bloomington Presbyterian church Tuesday evening.

The lecture course just closed has been one of the most successful in the history of Bloomington.

WILLETT ARRESTED FOR NON-SUPPORT

Sheriff Jones and Patrolman Bell Tuesday afternoon arrested Oscar Willett on a charge of non support. The warrant was issued from the Probate court.

FAYETTE CONVICT MAY GET PARDON

Columbus, March 3.—Application for the pardon of James Mansfield, Fayette county, serving an indeterminate sentence in the penitentiary for a statutory crime will be presented to the State Board of Pardons tomorrow. He was sentenced in August, 1907.

180 TRACTION MEN ON STRIKE IN EASTERN OHIO

East Liverpool, O., March 3.—Street car and interurban service was tied up today in this city and in Wellsburg and Chester, W. Va., as a result of a strike of 180 conductors and motormen of the East Liverpool Traction and Light Company.

The men complained of the system of employing extra instead of regular employees in handling coal hauling trains.

VERMONT HOLDS LIQUOR ELECTIONS

Burlington, Vt., March 3.—City and town elections were held over the state, the liquor license question being the burning issue. Montpelier, which was wet last year, has switched into the dry column, and Bennington has reversed the process by joining the wets. Rutland, the second largest city in the state, remained wet by a margin of three votes. Other places which went wet were St. Albans, Vergennes, Colchester and Fairhaven. Among towns which went back into the dry column after being licensed a year are Waterbury and Swanton.

PARRETT'S GROCERY!

"THE YELLOW FRONT."

THE HOME OF QUALITY FOR TWENTY-SEVEN YEARS.

Our Teas and Coffees

are justly popular with people who are particular. Women who try them remark their unusually fine flavor, their unusual strength, which means less tea or coffee in the pot for the same number of cups. We know if you will give them a trial you will always use them.

Our Most Popular

Brands of Coffee—SKYLINE and DeLITE blend—are chosen by the most particular for their uniform Quality and delightful Aroma. One trial will convince you. Price 30 cents per pound.

Lipton's Tea

has long been the favorite in many Washington homes—a delightful blend of Ceylon and India Teas which make a good cup. Price 1/4 lb. package 20c. 1/2 lb. package 40c.

Other Blends

of Choice Tea—PERRI, WALLA and ROOKWOOD—which are selected for their high grade cup quality. We also have in stock at all times the best grades of YOUNG-HYSON, IMPERIAL JAPAN and OOLONG Teas. A trial order on our high grade Teas and Coffees will make you a steady customer.

WE GIVE REBATE STAMPS

TRUSTEES FAILED TO EMPLOY SUPT.

At a meeting of the Children's Home trustees, held Tuesday afternoon, the board could not agree upon a new superintendent and matron and another meeting will be held later this week.

The three eligibles for the position of Superintendent are: E. B. Taylor, Noah Carr and Thomas Pinkerton.

It requires three of the four votes to select a new superintendent and matron.

CITIZENS PLEASED WITH NEW LIGHTS

Local citizens were afforded another opportunity of beholding the new nitrogen street lamps Tuesday night, and all were greatly pleased with the new lights.

The 600 candle power lamps on

North street placed at intervals of one-half square, lighted the street as it was never before lighted, and made the so-called "powerful" arc lights look very weak and out of place.

The transformation under the rays of the lights gives a wide-awake appearance to the city.

THE OLD RELIABLE STILL IN THE LEAD

Stop, look and wonder how The Old Reliable can sell a good No. 1 Ryo. Coffee at 12 1/2c per lb.
